

for an excellent finish

Discs: MultiNet VEL

Open discs with mesh structure and velour backing for dust-free sanding

Product benefits

- Nearly dust-free sanding thanks to full-surface dust extraction
- Long service life and high stock removal due to reduced clogging
- High edge stability
- High tear resistance
- Easy to change discs with velour backing and no need to follow hole patterns
- Extensive grit range for use on a wide variety of material

Applications

Grinding machine:

- For use in hand sanding as well as on handheld or robotic random orbit sanders

for different materials:

- Pre-, intermediate and fine sanding as well as finishing applications
